Patrick Brent Santiago

AI-First Product Builder · Full-Stack Developer
Quezon City, Philippines (UTC+8) · Open to remote junior roles · +63 917 111 0224
brentbuilds.dev@gmail.com · linkedin.com/in/patrick-brent-santiago

Summary

AI-first product builder and full-stack developer in Quezon City, Philippines (UTC+8), open to remote junior roles with US, EU, or APAC overlap. Building UniDorms (unidorms.ph) solo with AI-assisted development on Next.js, React, Node.js, Supabase Postgres, and Vercel; launching soon, pending government registration. Owns a feature from schema to deploy, writes clear async updates, and reviews payment and data changes before release.

Experience

Founder and Full-Stack Developer — UniDorms (unidorms.ph)

Sachi Tech · 2026 — Present

- Building a two-sided student-housing marketplace solo: listings, landlord KYC, host reputation, an admin dashboard, and transactional email. Launching soon; official launch is awaiting government registration.
- Built the app in four months with AI-assisted development on Next.js, React, Tailwind, Node.js, and Supabase Postgres, with continuous deploys on Vercel.
- Designed a Xendit escrow flow for launch: the first successful payment claims a room atomically, other payments refund automatically, and payouts need admin approval.
- Replaced manual listing entry with a Gemini pipeline that validates rental posts and retries broken model output.
- Added rate limits and automated tests around auth, payments, and listing writes.

Health Insurance Advisor — Sun Life of Canada

Part-time, commission-only · MDRT Qualifier, 2026 · February 2025 — Present · Philippines

- MDRT Qualifier, 2026. Advise families on health and protection plans in spare time, from needs analysis through application and after-sales service.
- Run my own pipeline and records, with no fixed hours, so engineering stays the primary work.

Sales Manager — Digital Network Communications

2024 — September 2025

- Owned telecom projects and client accounts from scoping through delivery, and coordinated technical teams to hit schedule.
- Inspected sites for feasibility and won accounts through direct outreach.

Accounting Intern — PGA Cars

April — August 2023

- Kept bank records and job orders accurate in Excel for the finance team.
- Checked transactions against source documents for internal audits.
- Closed cash-advance liquidations on schedule.

Skills

Frontend: React, Next.js, React Native, Tailwind, JavaScript. Backend and infra: Node.js, REST APIs, Supabase, PostgreSQL (Postgres), Vercel, Git. Payments and AI: Xendit, Resend, Claude, Gemini; AI-assisted development workflow. Data: SQL, Excel, Minitab.

Recognition

MDRT Qualifier, 2026 — Million Dollar Round Table, health insurance.

Education

De La Salle University — Manila. B.S. Industrial Engineering, Minor in IT. 2019 — 2024.
